### **Work Experience Requirements**<sup>15</sup>

- All work experience candidates will work 5 days a week for 4 hours a day, this could include a weekend day and could include longer days and then shorter ones to follow. These tasks are done within our group of companies and usually will be in Spark.
- Their tasks could be one of the following (and will usually involve a mix of them): assisting with classes in our English academy/camp, translation, IT, social media tasks, reception work, assisting with our school group parties helping on excursions/serving food, general administration, marketing, sales, market design and decorating. Candidates can indicate a preference for the type of tasks they wish to do and usually they will have a projects connected to these, but this is not guaranteed. We are also happy to consider closed agreements with partners to offer set "work experience" i.e. all candidates do social media tasks<sup>16</sup>, however would be arranged in separate agreement.
- It is the agent partner's responsibility to make sure the work experience candidate understands the conditions of this programme and is committed to developing during their work experience. It is Spark's responsibility to provide them with adequate preparation and support. All candidates are given a work reference reflecting their performance.

---

<sup>15</sup> Mentioned here are only the main programme requirements. A full list of programme features would be sent on to the agent partner.

<sup>16</sup> This could involve a higher weekly fee depending on the work experience requested for the "group".
